v. 29-61

cop. 2

PREFACE.

IN arranging this index the system used by Dr. Fowler for the previous one, including volumes 1-28, has been followed very closely.

Authors' names and subjects are in the same alphabetical series, but the former are printed in capital letters. The successive papers of a particular author are numbered in chronological order; in the case of papers by joint authors the full title and reference to volume and page are given in the case of the first-named author only.

The number in brackets after an author's name refers to his paper, the full title of which will be found under his name. In the case of a paper by joint authors the number refers to the list of papers by the first-named author.

Numbers referring to volumes are printed in heavy type, those referring to pages in ordinary type.

H. L. M. PIRELL-GOODRICH.

INDEX.

A.

- Acanthocephala, Shipley (4, 6)
 Acanthodrilids; cœlomic fluid, Benham (18)
 — two from New Zealand, Benham (5)
 Acanthodrilus; anal nephridia, Beddard (5)
 — development, Beddard (9)
 Acanthohammingia shiplei, Ikeda (1)
 Acinetaria, Martin (2, 3)
 — Dendrocometes, Hickson (6), Lapage and Wadsworth (2)
 — Dendrosoma, Hickson and Wadsworth (7)
 Acrossota, an Aleyonarian with simple tentacles, G. C. Bourne (7)
 Actiniaria, Fowler (1)
 — mesenteries, Dixon (1)
 — Thelaceros from Celebes, Mitchell (1)
 Actinosphærium; encystment, Mackinnon (1)
 Actinotrocha, Menon (1), Masterman (1, 2, 3)
 — nephridia, etc., Goodrich (16)
 Adipose lobe of pelvic fin of Salmon, Shann (1)
 Admetus; development, Gough (1)
 Ænigma; structure, G. C. Bourne (5)
AGAR, W. E. (1). The Spermatogenesis of *Lepidosiren paradoxa*. **57**, 1-14, pls. 1-5
 — (2). Transverse segmentation and internal differentiation of Chromosomes. **58**, 285-298, pls. 12, 13
 Aggregatidæ; sporogony and systematic position, Pixell-Goodrich (1)
 Albunea, Garstang (2).
 Aleyonaria; *Acrossota liposclera*, n.g. and n.sp., G. C. Bourne (7)
 — digestive organs, Pratt (1)
 Aleyonium; anatomy, Hickson (4)
 — chemical constitution of the Mesogloea, Brown (1)
 Aleyonium—
 — maturation of ovum, M. D. Hill (2)
 — spicule formation, Woodland (2)
 Alimentary Canal; development in *Lepidosiren* and *Protopterus*, Kerr (3)
ALLEN, E. J. (1). On the minute structure of the gills of *Palæmonetes varians*. **34**, 75-84, pl. 10
 — (2). Nephridia, and body-cavity of some Decapod Crustacea. **34**, 403-426, pls. 26-28
 — (3). Studies on the nervous system of Crustacea. I. Some nerve-elements of the Embryonic Lobster. **36**, 461-482, pls. 35, 36
 — (4). II. The Stomato-gastric system of *Astacus* and *Homarus*. III. On the beading of nerve-fibres and on end-swollings. **36**, 483-498, pls. 37, 38
 — (5). IV. Further observations on the nerve-elements of the Embryonic Lobster. **39**, 33-50, pl. 4
 — (6). The anatomy of *Pecilocbatus*. **48**, 79-152, pls. 7-12
 — (7). & **E. W. NELSON**. On the artificial culture of Marine Plankton Organisms. **55**, 361-432
ALLEN, W. F. (1). Studies on the development of the Veno-Lymphatics in the tail-region of *Polistotrema* (*Bdellostoma*) *stouti*. First communication: Formation of the Caudal Hearts. **59**, 309-360, pls. 19-21
ALLIS, E. P. (1). The lateral sensory canals, the eye-muscles, and the peripheral distribution of certain of the cranial nerves of *Mustelus lævis*. **45**, 87-236, pls. 10-12
 Allopora; gonophores of, Hickson (2)
 — ovum, Hickson (1)
 Amia; early development, Dean (1)
 Ammocetes; parasite of brain of, A. W. Brown (1)

- Amœbæ from Bombay, Liston and Martin (1)
 — in cases of Goitre, McCarrison (1)
 — early stages in nuclear division, Martin (7). See also Entamœba
- Amphibia; Batrachia from Paraguay, Budgett (1)
 — ciliation of ectoderm in embryo, Assheton (8)
 — development of Necturus, Platt (1)
 — development of central nervous system, Orr (1)
 — germ cells, Gateby (1)
 — maturation of egg of Axolotl, Jenkinson (3)
 — intestinal Protozoa, Dobell (6). See also Rana
- Amphinomidæ; nephridia, Goodrich (12)
- Amphioxides; review of Goldschmidt's monograph, Willey (20)
- Amphioxus, Lankester (1)
 — development, MacBride (6, 9)
 — development of Atrium, Lankester (2, 6)
 — formation of layers, MacBride (11)
 — later larval development of, Willey (2)
 — excretory organs, Goodrich (15, 21)
 — excretory tubules, Weiss (2)
 — pharyngeal bars, Benham (9)
 — Protozoa in, E. C. Pollard (1)
 — from Torres Straits, Willey (6)
- Amphiura; development, MacBride (2)
- Anaspidacea; living and fossil, Geffrey Smith (3)
- Anaspides; Gregarine in digestive tract of, Huxley (1)
- ANDREWS, E. A.** (1). Some abnormal Annelids. **36**, 435-460, pls. 32-34
- Anguilla; reproduction and metamorphosis, Grassi (2)
- Animal behaviour; Planarians, Pearl (1)
- Annelida; relation of prostomium to Arthropod head, Goodrich (8). See also Archiannelida, Hirudinea, Oligochæta, Polychæta
- Anomiacea; structure of *Ænigma*, G. C. Bourne (5)
- Anthozoa; calcareous skeleton, G. C. Bourne (3)
 — Octineon; Fowler (5)
 — Pennatulida, Musgrave (1)
 — Xenia and Heteroxenia, Ashworth (2)
 — see also Alcyonaria, Actiniaria, Madreporaria
- Aphelinus; a Chalcid parasite of *Lepidosaphis*, Imms (1)
- Aphides in canker of apple-tree, Bloomfield (1)
- Aphis; apterous viviparous female, Davidson (1)
- Aplysia punctata; development, Saunders and Poole (1)
- Apororhynchus (*Arhynchus*) hemignathi, Shipley (4, 6)
- Apteryx; Tapeworms of, Benham (16)
- Apus; reproductive elements, Moore (2)
- Arachnida; brain and sense-organs of *Limulus*, Patten (2)
 — development of *Admetus*, Gough (1)
 — endosternite, Pocock (3)
 — *Kœnenia* from Texas, Rucker (1)
 — origin of Vertebrates from, Patten (1)
 — respiratory organs in Araneæ, Purcell (1, 2)
 — spinning apparatus of Spiders, Warburton (1)
 — structure and classification, Lankester (10)
 — see also Scorpio
- Araneæ; respiratory organs, Purcell (1, 2)
- Archerina (*Golenkinia*), Lankester (11)
- Archiannelida; *Dinophilus* nephridia, Shearer (1)
 — *Histriobdella*, Shearer (2)
 — *Histriobdellida*, Haswell (7)
 — nephridia *Dinophilus* and larval *Polygordius*, Goodrich (20)
 — *Nerilla*, Goodrich (22)
 — sexual cycle of *Dinophilus*, Shearer (4)
 — *Stratiodrilus* embryology, Haswell (9)
- Arthropod during Mitosis in larval Salamander, Moore (1)
- Arenicola, anatomy, etc., Ashworth (5)
 — Gregarine of, M. Robinson (4)
 — marina, habits and structure, Gamble and Ashworth (2)
- Arenicolidæ; anatomy and classification, Gamble and Ashworth (3)
- ARNOLD, G.** (1). Intra-cellular and general digestive processes in Planariæ. **54**, 207-220, pl. 17
 — — (2). See **BARRATT** (1)
 — — (3). On the condition of the Epidermal Fibrils in Epithelioma. **57**, 283-300, pl. 25
- Arthropoda; coelom and vascular system, Lankester (3)
 — compound eye, Watase (1)

Arthropoda—

- Peripatus, Scutigera, Muir and Kershaw (1, 2)
- relation of head to Annelid Prostomium, Goodrich (8)
- segmentation of head of Diplopoda, M. Robinson (3)
- segmentation and phylogeny, Carpenter (1)
- structure and classification, Lankester (9)
- see also Arachnida, Crustacea, Hexapoda, Myriapoda, Onychophora

Ascidia mentula; origin of sense-organs, Willey (5)

Ascidian; Oligotrema, a new, G. C. Bourne (4)

— Julinia, n. g. of Compound, Calman (1)

— a new Compound, Sollas (1)

Ascons; materials for monograph, Minchin (5, 8)

AE T WORTH, J. H. (1). See **GAMBLE** (2)

— (2). The structure of *Xenia Hicksoni*, nov. sp., with some observations on *Heteroxenia Elizabethæ*, Kölliker. **42**, 245-304, pls. 23-27

— (3). See **GAMBLE** (3)

— (4). The anatomy of *Scalibregma inflatum*. **43**, 237-310, pls. 13-15

— (5). The anatomy of *Arenicola assimilis*, Ehlers, and of a New Variety of the Species, with some observations on the Post-larval Stages. **46**, 737-785, pls. 36, 37

ASSHETON, R. (1) & **A. ROBINSON.**

The formation and fate of the primitive streak, with observations on the Archenteron and germinal layers of *Rana temporaria*. **32**, 451-505, pls. 34, 35

— (2). On the development of the optic nerve of Vertebrates, and the choroidal fissure of Embryonic Life. **34**, 85-104, pls. 11, 12

— (3). A re-investigation into the early stages of the development of the Rabbit. **37**, 113-164, pls. 13-17

— (4). On the phenomenon of the fusion of the epiblastic layers in the Rabbit and in the Frog. **37**, 165-172, pl. 18

ASSHETON, R.—

— (5). On the causes which lead to the attachment of the Mammalian embryo to the walls of the Uterus. **37**, 173-190, pl. 19

— (6). The primitive streak of the Rabbit; the causes which may determine its shape, and the part of the embryo formed by its activity. **37**, 191-222, pls. 20-22

— (7). On the growth in length of the Frog embryo. **37**, 223-244, pls. 23, 24

— (8). Notes on the ciliation of the ectoderm of the Amphibian embryo. **38**, 465-484, pl. 35

— (9). The segmentation of the ovum of the Sheep, with observations on the hypothesis of a hypoblastic origin for the Trophoblast. **41**, 205-262, pls. 15-18

— (10). The development of the Pig during the first ten days. **41**, 329-360, pls. 25-28

— (11). (and **STEVENS, T. G.**). Notes on the structure and the development of the Elephant's placenta. **49**, 1-38, pls. 1-5

— (12). Prof. Hubrecht's paper on the early ontogenetic phenomena in mammals; an appreciation and a criticism. **54**, 220-278

— (13). *Tropidonotus* and the "Archenteric knot" of *Ornithorhynchus*. **54**, 631-636, pl. 33

— (14). *Loxosoma loxalina* and *Loxosoma saltans*. Two new species. **58**, 117-144, pls. 6, 7

— (15). Gastrulation in Birds. **58**, 145-158

Assimilated iron compounds in cells, Macallum (1)

Astacus; anterior rudimentary gill, Moseley (1)

— stomato-gastric system, E. J. Allen (4)

Asterias rubens; development, Gemmill (2)

— vulgaris; larva, Field (1)

Asterina gibbosa; development, MacBride (5)

Athene noctua; blood parasites, Minchin and Woodcock (12)

Atrial chamber of *Amphioxus*; development, Lankester (2)

Auditory organ; development in Frog, Villy (1). See also Ear

- Aurelia; variation in Tentaculoceysts, Browne (1).
- Auricularia; spicules, Woodland (8)
- Aves; Chorda tympani and middle ear, Goodrich (24)
- development of peripheral nervous system, Beard (2)
- middle ear and columella, Geoffrey Smith (1)
- gastrulation, Assheton (14)
- growth of Fowl's comb, Geoffrey Smith (6, 7)
- Haemoprotozoa, Woodcock (6, 7, 8, 10)
- head-muscles of Gallus, Edgeworth (1)
- spermatogenesis in Pigeons, Geoffrey Smith (10)
- Avitellina; histology, Gough (2)
- Axolotl; egg, Jenkinson (3)
- B.
- Bacteria; cytology, Dobell (10)
- the differentiation of leprosy and tubercle bacilli, Slater (2)
- immunity, Ruffer (2, 3)
- morphology, Klein (1)
- red pigment forming organism *B. corallinus*, Slater (1)
- spore formation in *Disporic*, Dobell (8)
- BAGE, F.** On the histological structure of the retina of the lateral eyes of *Sphenodon punctatus*, with special reference to the sense-cells. **57**, 305-328, pls. 27-29
- Babamas; pelagic organism from, Weldon (1)
- Balanoglossus, see *Enteropneusta*
- Balanus; mouth parts of Cypris-stage, Groom (1)
- BARRATT, J. O. W. (1) & G. ARNOLD.**
A study of the blood of certain Coleoptera: *Dytiscus marginalis* and *Hydrophilus piceus*. **56**, 149-166, pl. 11
- (2). Changes in Chromidriosomes occurring in pathological conditions. **58**, 553-566
- Bathanalia, Moore (5)
- Batrachia, see Amphibia
- Bdellostoma; brain and nerves, Worthington (1)
- development, Dean (2)
- (*Polistotrema*); veno-lymphatics and caudal hearts, W. F. Allen (1)
- BEARD, J. (1).** Morphological studies. I. The parietal eye of the Cyclostome Fishes. **29**, 55-74, pls. 6, 7
- (2). Morphological studies. II. The development of the peripheral nervous system of Vertebrates (Part I. Elasmobranchii and Aves). **29**, 153-228, pls. 16-21
- Beaver; blastocyst and placenta, Willey (21)
- BEDDARD, F. E. (1).** On the structure of three new species of Earthworms, with remarks on certain points in the morphology of the Oligochaeta. **29**, 101-132, pls. 12, 13
- (2). On certain points in the structure of *Urochaeta*, E.P., and *Dichogaster*, nov. gen., with further remarks on the Nephridia of Earthworms. **29**, 235-282, pls. 23, 24
- (3). Contributions to the Anatomy of Earthworms, with descriptions of some new species. **30**, 421-480, pls. 29, 30
- (4). On the structure of a species of Earthworm belonging to the genus *Diachaeta*. **31**, 159-174, pl. 20
- (5). On the structure of a new genus of Oligochaeta (*Deodrilus*), and on the presence of Anal Nephridia in *Acanthodrilus*. **31**, 467-488
- (6). On the structure of two new genera of Earthworms belonging to the Eudrilidae, and some remarks on *Nemertodrilus*. **32**, 235-279, pls. 16-20
- (7). On the structure of an Earthworm allied to *Nemertodrilus*, Mich., with observations on the post-embryonic development of certain organs. **32**, 539-586, pls. 38, 39
- (8). A new Branchiate Oligochaeta (*Branchiura Sowerbyi*). **33**, 325-342, pl. 19
- (9). Researches into the embryology of the Oligochaeta. No. I. On certain points in the development of *Acanthodrilus multiporus*. **33**, 497-540, pls. 30, 31
- (10). Two new genera and some new species of Earthworms. **34**, 243-278, pls. 25, 26

BEDDARD, F. E.—

— (11). A contribution to our knowledge of the Oligochaeta of Tropical Eastern Africa. **36**, 201-270, pls. 16, 17

BENHAM, W. B. (1). The anatomy of *Phoronis australis*. **30**, 125-158, pls. 10-13

— (2). An attempt to classify Earthworms. **31**, 201-316

— (3). The Nephridium of *Lumbricus* and its blood supply; with remarks on the Nephridia in other *Chatopoda*. **32**, 293-335, pls. 23-25

— (4). Notes on some aquatic Oligochaetes. **33**, 187-218, pls. 5-7

— (5). Notes on two Acanthodriloid Earthworms from New Zealand. **33**, 289-312, pls. 15, 16

— (6). A new English genus of aquatic Oligochaeta (*Sparganophilus*) belonging to the family Rhinodrilidae. **34**, 155-180, pls. 19, 20

— (7). Description of a new species of *Moniligastrer* from India. **34**, 361-382, pl. 32

— (8). Note on a new species of the genus *Nais*. **34**, 383-386, pl. 33

— (9). The structure of the pharyngeal bars of *Amphioxus*. **35**, 97-118, pls. 6, 7

— (10). A description of the cerebral convolutions of the Chimpanzee known as "Sally"; with notes on the convolutions of other Chimpanzees and of two Orangs. **37**, 47-86, pls. 7-11

— (11). On *Benhamia cœcifera*, n. sp., from the Gold Coast. **37**, 103-112, pl. 12

— (12). On *Kynotus cingulatus*, a new species of Earthworm from Imerina in Madagascar. **38**, 445-464, pls. 33, 34

— (13). The blood of *Magelona*. **39**, 1-18, pl. 1

— (14). Fission in Nemertines. **39**, 19-32, pls. 2, 3

— (15). *Balanoglossus otagoensis*, n. sp. **42**, 497-504, pl. 45

— (16). The structure of the Rostellum in two new species of Tapeworm from *Apteryx*. **43**, 83-96, pls. 7, 8

BENHAM, W. B.—

— (17). *Heteroplenron Hectori*, the New Zealand Lancelet. **44**, 273-280, pl. 17

— (18). The cœlomic fluid in Acanthodrilids. **44**, 565-590, pl. 41

— (19). On some new species of the genus *Phreobrilus*. **48**, 271-298, pls. 13-15

— (20). On a new species of the genus *Haplo-taxis*; with some remarks on the genital ducts in the Oligochaeta. **48**, 299-322, pls. 16-18

Benhamia; an Earthworm from Gold Coast, Benham (11)

BENSLEY, R. R. (1). The structure of the mammalian gastric glands. **41**, 361-390, pl. 29

BERNARD, H. M. (1). An attempt to deduce the vertebrate eyes from the skin. **39**, 343-370, pl. 22

— (2). Studies in the retina: Rods and cones in the Frog and in some other Amphibia. I. **43**, 23-48, pl. 3

— (3). Part II. **44**, 413-468, pls. 30, 31

— (4). Parts III, IV, V, with summary. **46**, 25-76, pls. 3-5

— (5). Part VI. The continuity of the nerves through the vertebrate retina. **47**, 303-362, pls. 27-29

BIDDER, G. (1). The collar-cells of *Heterocecia*. **38**, 9-14, pl. 2

— (2). Review. see **DENDY (4)** *Bionomics*; *Convoluta*, Gamble and Keeble (5)

Bipinnariæ; from English Channel, Garstang (1)

Blastocyst; beaver, Willey (21)

Blastopore; *Rana*, Sidebotham (1)

Blepharoplast, Robertson and Minchin (4)

Blood; *Carcinus*, sexual changes in, Geoffrey Smith (8)

— *Coleoptera*, Barratt and Arnold (1)

— corpuscles of *Lamellibranchs*, G. H. Drew (1)

— *Magelona*, Benham (13)

— parasites in Fishes at Rovigno, Minchin and Woodcock (10). See also *Hæmoflagellata*

- (4). *Oligotrema psammites*; a new Ascidian belonging to the family *Molgulidæ*. **47**, 233-272, pls. 19-23
- (5). On the structure of *Ænigma ænigmatica*, Chemnitz; a contribution to our knowledge of the Anomiacea. **51**, 253-296, pls. 15-17
- (6). On the anatomy and systematic position of *Incisura* (*Scissurilla*) *Lytteltonensis*. **55**, 1-48, pls. 1-5
- (7). On *Acrossota liposclera*, a new genus and species of Aleyonarian with simple tentacles. **60**, 261-272, pl. 22
- BOUVIER, E. L. (1).** Quelques observations sur les Onychophères (*Peripatus*) de la Collection du Musée Britannique. **43**, 367-374
- (2). Nouvelles observations sur les *Peripatus* de la Collection du Musée Britannique. **43**, 749-757
- Bouvier and Bordage's researches on mutations in *Crustacea*, Calman (2)
- BRADFORD, J. R. & H. G. PLIMMER.** The *Trypanosoma Brucei*, the organism found in Nagana, or Tsetse-fly Disease. **45**, 449-472, pls. 24, 25
- Brain; cerebral convolutions in Chimpanzees and Orangs, Benham (10)

Brain—

- cortical lamination in *Papio*, Schuster (1)
- and cranial nerves *Bdellostoma*, Worthington (1)
- foetal *Ornithorhynchus*, G. Elliot Smith (1)
- and sense organs of *Limulus*, Patten
- primitive segmentation in the Vertebrate, Waters (1)
- parasite of, in *Ammocetes*, A. W. Brown
- Branchial vessels, *Sternaspis*, Goodrich (18)
- Branchiostomida; genera and species, Kirkaldy (2)
- Branchiura *Sowerbyi*, Beddard (8)
- Brazilin staining, Hickson (5)
- BROWN, A. W.** On *Tetracotyle petromyzontis*, a parasite of the brain of *Ammocetes*. **41**, 489-498, pl. 39
- BROWN, W. L.** Note on the chemical constitution of the *Mesogloea* of *Aleponium digitatum*. **37**, 389-394
- BROWNE, E. T. (1).** On the variation of the Tentaculocysts of *Aurelia aurita*. **37**, 245-252, pl. 25
- — (2). On the variation of *Halicyclus octoradiatus*. **38**, 1-8, pl. 1
- — (3). On the freshwater *Medusa* liberated by *Microhydra ryderi*, Potts, and a comparison with *Limnocoelium*. **50**, 635-645, pl. 37
